# WELCOME

You've undoubtedly heard it as you flipped across your radio dial. Each station claims to be the ultimate in listening pleasure. We at KUCI, however, believe we have something truly special to offer you. No other radio station has direct access to the resources of the University of California, Irvine. Few other stations are run entirely by college students and staffed by student volunteers who work purely for their love of radio. Not many broadcast stations can boast a musical schedule quite as varied. No where else can you hear news, public affairs, and special programming like that presented by KUCI. This programming guide, then, has been compiled to acquaint you with our diverse and unique audio banquet and we hope that you find in our programming something that will inform and entertain.

Program Director

## News

KUCI, in its wisdom, realizes that all music and no news makes Jack a dull boy (and rather dense, as well). To deal with this, KUCI presents The News, Monday through Friday at noon and 6 p.m. The scope of the News on KUCI has always centered on the campus and the community, and radiated outward. We try diligently to direct ourselves to the student audience also; and so with all this in mind we have designed our special features — the UC Radio Network (five UC campuses with daily news reports), movie reviews and entertainment news, live coverage of UC Irvine sports. And our fanciful features are designed along similar lines — The KUCI Earwitness News, Fridays at 6 p.m. The News on KUCI - oriented for the community and the students - all (hopefully) with care from the talented guys in the News Department at KUCI.

### ANTEATER BASEBALL

KUCI's News Department features live broadcasts of exciting Anteat-er Baseball. Sportscasters Nick Roman, Scott Fier and Doug Murray will bring you all of the action from each of the UCI home games.

## WEDNESDAY

### SPECTRUM

Spectrum, heard on Wednesday afternoons from 5-6 p.m., is something that Marshall McLuhan will be proud of (if he ever gets a chance to hear it). It is a non-linear compendium of public affairs material. In short, it somewhat defies description as it will be changing and growing from week to week. If nothing else, it will be entertaining, informative, and occasionally surprising. What more could you ask?
